PROFESSIONAL SUMMARY

Motivated and detail-oriented Frontend Web Developer with hands-on experience building responsive, user-friendly web applications using HTML, CSS, and JavaScript. BCA graduate (2025) with a strong foundation in DOM manipulation, UI/UX design principles, and modern web development practices. Passionate about writing clean, semantic code and creating engaging digital experiences. Seeking a Frontend Developer Internship to contribute, grow, and apply real-world skills.

TECHNICAL SKILLS

Languages:	HTML5, CSS3, JavaScript (ES6+)
Frontend:	Responsive Web Design, DOM Manipulation, CSS Flexbox, CSS Grid
Tools & Platforms:	Git, GitHub, VS Code, Netlify, Formspree API, Chrome DevTools
CI/CD & Deployment:	GitHub-Netlify CI/CD Integration, Continuous Deployment (CD), Automated Build Pipeline, Git-based Version Control (push → build → live)
Concepts:	Responsive Web Design, CSS Box Model, Flexbox, CSS Grid, Cross-Browser Compatibility, Web Accessibility (a11y), Semantic HTML, UI/UX Principles
Other:	C, C++, Python (Basic)

PROJECTS

Personal Portfolio Website

Technologies: HTML5, CSS3, JavaScript | [Live Demo](#) | [GitHub](#)

- Designed and developed a fully responsive personal portfolio website showcasing skills, projects, and contact information.
- Implemented a Day/Night theme toggle feature using JavaScript for enhanced user experience.
- Built a dynamic time-based greeting system using DOM manipulation that displays contextual messages (Good Morning, Good Afternoon, etc.) based on the visitor's local time.
- Added smooth scroll-to-top button functionality for improved navigation and usability.
- Integrated Formspree API into the contact form, enabling real-time form submissions to be captured and delivered directly to email — without any backend or server-side code.
- Integrated Formspree API into the contact form to capture recruiter/visitor inquiries directly to email — fully functional with live end-to-end testing verified.
- Configured a GitHub–Netlify CI/CD pipeline enabling automatic deployments on every git push — eliminating manual deploys and ensuring the live site always reflects the latest code.

Digital Business Card

Technologies: HTML5, CSS3 | [GitHub](#)

- Built a clean, single-page digital business card web project with a modern card-style layout.
- Included profile photo, short personal bio, and clickable social media handles (LinkedIn, GitHub) for easy access.
- Utilized CSS Flexbox for layout and responsive styling without any external framework.
- Focused on semantic HTML structure to ensure accessibility and SEO-friendliness.

EDUCATION

Bachelor of Computer Applications (BCA)

Tilak Maharashtra Vidyapeeth, Pune

Graduated: June 2025 | Total Semesters: 6

CGPA: 8.3 / 10.0

CERTIFICATIONS

Full Stack Web Development

Coding Seekho Institute

2025

Covered end-to-end web development fundamentals including frontend technologies (HTML, CSS, JavaScript) and backend concepts, building a strong base for full-stack development.
